City Solicitor,
The Corporation of the City of Kitchener,
City Hall, Kitchener, Ontario.

SCHEDULE "A"

Street	Location	New Street Name	Reason for change
County Road No. 14	Homer Watson Boulevard to Homer Watson Boulevard	Doon Village Road	County Road No. 14 runs through the upper part of the Village of Doon, sometimes called Towtown, and is the main street of that part of the village. Objections were raised to proposals to call it Manitou Drive and Doon Road and a compromise was reached with the name Doon Village Road which seems acceptable to the majority of the property owners on the street.
Borden Parkway	Mill Street to Stirling Avenue South and Avalon Place	Shoemaker Parkway	Originally it was the intention to join Borden Parkway to Borden Avenue South. This plan is now abandoned and, since addresses now exist on Borden Parkway, some confusion has developed due to the duplication of the name Borden. The two Bordens are now separated by the C.N.R. spur line and the J. M. Schneider company's parking lot.

(2) Where loss or damage occurs in Stage 1, the Commission upon application therefor in writing by the insured person may consent in writing to,

(5) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying,

- (a) 30 per cent of the guaranteed production for the damaged acreage; or
- (b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per ton.

(7) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 5 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying,

- (a) 45 per cent of the guaranteed production for the damaged acreage; or
- (b) the difference between the guaranteed production and the potential production determined under subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per ton.

(4) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

18.—(1) Stage 3 comprises the period from and including the 1st day of July to and including the 31st day of July in the crop year.

(3) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying,

whichever is the lesser, by the established price per ton.

(2) Where the actual production of the insured acreage in Stage 4 is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per ton.

(3) For the purpose of subparagraph 2, actual production shall include,

- (a) production delivered to and accepted by a processor;
- (b) production delivered to and rejected by a processor unless the rejection resulted from a cause of loss designated in paragraph 2;

INCORRECT ACREAGE IN CONTRACT ACREAGE REPORT

21.—(1) Where the actual planted acreage of the insured crop in the crop year is less than the acreage designated in the contract acreage report, the total guaranteed production and the maximum amount of indemnity shall be reduced proportionately.

(2) Where the actual planted acreage of the insured crop in the crop year exceeds the acreage designated in the contract acreage report, the total guaranteed production and the maximum amount of indemnity shall not be increased but the production from the total planted acreage shall be included in establishing the production of the insured person.

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

INTEREST OF OTHER PERSONS

24. Notwithstanding that a person other than the insured person holds an interest of any kind in the insured crop, for the purposes of this contract,

(b) except as provided in paragraph 25, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

25. The insured person may assign all or part of his right to indemnity under this contract in respect of the insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

26.—(1) Where loss or damage to the insured crop results from one or more of the perils insured against and the insured person intends to abandon or destroy the insured crop, or to replant or use the planted acreage for another purpose, the insured person shall notify the Commission in writing of such intention and shall take no further action without the consent in writing of the Commission.

(2) Where loss or damage to the insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission in writing within five days of such time.

(3) Where loss or damage to the insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear, to the insured person at any time after planting and before the completion of harvesting of the insured crop that the potential production of the insured crop will be less than the total guaranteed production, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(4) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of the insured crop,

(a) the actual production is less than the total guaranteed production; and

(b) the loss in production resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing within five days of completion of harvesting.

taken without sufficient reason he may, in his discretion, disallow the additional costs occasioned thereby.

- (3) In an action for sale, subsequent encumbrancers shall not be made defendants by writ, but shall be added as parties in the Master's Office.

466.—(1) Where a defendant by writ in an action for foreclosure or sale desires an opportunity to redeem the mortgaged property, he shall, within the time limited for appearance and, whether an appearance is entered or not, file a notice to that effect and, where the defendant filing such notice is a subsequent encumbrancer, the notice shall contain particulars of his claim verified by affidavit.

- (2) If a reference is desired as to encumbrancers, the plaintiff is entitled to judgment with a reference, and, if no encumbrancer proves a claim the Master shall so certify, and, upon confirmation of the Master's report, a final order of foreclosure or of sale shall be made.

- (3) If upon the reference in an action for foreclosure or redemption a subsequent encumbrancer proves a claim, the usual period of redemption shall be granted.

- (2) Where no defendant other than a subsequent encumbrancer has complied with sub-rule (1) of rule 466 and where no subsequent encumbrancer has proved a claim on the reference, the Master shall so report, and, upon the confirmation of his report, a final order of foreclosure or of sale may be obtained upon an *ex parte* application.

CAUSES OF LOSS INSURED AGAINST

1.—(1) Subject to subparagraph 2, this endorsement insures against a loss in the production of potatoes in a crop year resulting from drought, excessive moisture, excessive rainfall, flood, frost, hail, insect infestation, plant disease and wind.

(2) This endorsement does not insure against a loss in the production of potatoes in a crop year resulting from insect infestation or plant disease unless the insured person establishes that he followed a recommended control program during the crop year.

DURATION OF INSURANCE

2. The contract of insurance for potatoes is in force for the crop year in which it is made and continues in force for each crop year thereafter until it is cancelled or terminated in accordance with the regulations.

COVERAGE

3. The coverage provided for potatoes in each crop year shall be 50 per cent of the area average yield in hundredweights, as determined by the Commission in respect of the area in which the insured acreage is situate, applied to the total acreage planted to potatoes by the insured person in accordance with the regulations.

TOTAL GUARANTEED PRODUCTION

4. The number of hundredweights determined in accordance with paragraph 3 is the total guaranteed production of potatoes for a crop year.

INDEMNITY

5. The maximum indemnity payable for a loss in production of potatoes in a crop year is the amount obtained by multiplying the total guaranteed production by such established price per hundredweight as is determined in accordance with the plan.

PREMIUM

6. For each crop year in which the insured person plants acreage to potatoes, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

7. In each crop year in which the contract of insurance is in force for potatoes, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

8. The crop year for potatoes is the period from the 1st day of March in any year to the 15th day of November next following.

FINAL DATE FOR PLANTING

9. The final date for planting potatoes in a crop year is,

- (a) for the counties of Essex and Kent, the 1st day of June; and
- (b) for any other county or for a territorial district, the 15th day of June.

HARVESTING OF PLANTED ACREAGE

10.—(1) All acreage planted to potatoes in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose;
- (b) the abandonment or destruction of the insured crop or any part thereof; or
- (c) the digging of the insured crop or any part thereof before the earliest date for harvesting prescribed by subparagraph 2.

(2) The harvesting referred to in subparagraph 1 shall be commenced not earlier than,

- (a) in the counties of Essex and Kent, the 15th day of August; and
- (b) in any other county or in a territorial district, the 1st day of September,

and shall be completed not later than the 20th day of October or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any planted acreage is not completed on the final date for harvesting prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of the unharvested acreage.

(5) Where, with the consent of the Commission under clause *c* of subparagraph 1, any planted acreage is dug before the earliest date prescribed for harvesting by subparagraph 2, the Commission shall determine the potential production of such acreage, and such potential production,

- (a) shall be deemed to be not less than the guaranteed production for such acreage; and
- (b) shall be taken into account in the final adjustment of loss.

11.—(1) On receipt of a notice under subparagraph 3 of paragraph 10, the Commission shall determine,

- (a) the number of unharvested acres and the potential production thereof; and
- (b) whether the harvesting of the planted acreage was prevented by reason of one or more of the causes of loss insured against.

(2) Where the Commission determines that harvesting of any planted acreage was prevented by reason of one or more of the causes of loss insured against, the Commission may extend the time for harvesting of the planted acreage for such period as it deems proper.

VARIETIES OF POTATOES

12. Except as otherwise determined by the Commission, for the purposes of this plan acreage may be planted only to varieties of potatoes recommended in Publication No. 363 of the Department of Agriculture and Food entitled "Vegetable Production Recommendations" but the zones referred to in the said Publication No. 363 shall not be taken into account.

EVALUATION OF LOSS

13. For the purpose of determining the loss in production of potatoes in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 14 and 15.

STAGE 1

14.—(1) Stage 1 comprises the period from the date on which the planting of acreage to potatoes is completed to and including the 15th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage, provided that,
 - (i) the variety of potatoes replanted is one prescribed by paragraph 12, and
 - (ii) the replanting is completed not later than the 15th day of June; or

- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is replanted to potatoes in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying,

- (a) 60 per cent of the guaranteed production for the damaged acreage; or
- (b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per hundredweight.

(5) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

15.—(1) Stage 2 commences on the 16th day of June in the crop year and, with respect to any part of the planted acreage, ends with the completion of harvesting or on the final date for harvesting, whichever is the earlier.

(2) Where,

- (a) loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any

other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof;

(b) the harvesting of any planted acreage is not completed on the final date for harvesting, the Commission shall determine the number of unharvested acres and the potential production thereof; or

(c) any planted acreage is harvested, the Commission shall determine the number of acres harvested and the actual production thereof.

(3) Where loss or damage occurs in Stage 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production exceeds the aggregate of,

(a) the actual production of any harvested acreage; and

(b) the potential production,

(i) determined under clause *a* of subparagraph 2 for damaged acreage used for any other purpose or on which the insured crop was abandoned or destroyed, and

(ii) determined under clause *b* of subparagraph 2 for acreage on which harvesting was not completed on the final date for harvesting,

by the established price per hundredweight.

FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

16. The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1 and Stage 2 loss calculations applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of,

(i) any unharvested acreage, and

(ii) any acreage dug before the earliest date for harvesting prescribed by subparagraph 2 of paragraph 10,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per hundredweight.

DAMAGE AFTER HARVEST

17. No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after harvesting unless such loss or damage was caused by the occurrence before harvest of one or more of the insured perils, and notice of such occurrence was given to the Commission prior to harvesting.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

18.—(1) Where the actual planted acreage of potatoes in a crop year is less than the planted acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately and no premium shall be refunded.

(2) Where the actual planted acreage of potatoes in a crop year exceeds the planted acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

 - (i) a stationary power plant described in subclause i of clause a of subsection 1 of section 16 of the Act,
 - (ii) a steam-powered or compressor plant with a Therm-hour rating not exceeding 20.352, or
 - (iii) a refrigeration plant with a Therm-hour rating not exceeding 10.176;
- (b) thirty minutes in every hour, in the case of, a low-pressure stationary plant described in subclause ii of clause a of subsection 1 of section 16 of the Act; or

(c) eight continuous hours in any one day where,

- (i) no person other than a custodian occupies,
 - a. the building in which the boiler, compressor or engine room is situated, or
 - b. the premises on which the boiler, compressor or engine is situated, where the boiler, compressor or engine is not situated in a building, and

(ii) the plant consists of,

- a. a guarded low-pressure stationary plant where the maximum Therm-hour rating of the plant does not exceed 134 less the Therm-hour rating of the compressors, including any refrigeration compressors, and the maximum Therm-hour rating of all compressors does not exceed 7.632,
- b. a guarded steam-power plant or guarded compressor plant with a Therm-hour rating not exceeding 10.176, or
- c. a guarded refrigeration plant with a Therm-hour rating not exceeding 5.088.

(2) Notwithstanding subsection 1, the chief officer may reduce the time during which an operating engineer or operator may be absent as provided for in section 20 of the Act from a plant that is in close proximity to premises to which the public has access.

(3) In a plant that is not guarded, the operating engineer or operator in charge of,

- (a) a stationary power plant with a Therm-hour rating not exceeding 50;
- (b) a low-pressure stationary plant with a Therm-hour rating not exceeding 134; or
- (c) a steam-powered plant, a refrigeration plant or a compressor plant with a Therm-hour rating not exceeding 5.088,

may be absent as provided for in section 20 of the Act from the plant for not more than fifteen minutes in any one hour.

(4) The user of a plant in which there is installed as part of the plant,

- (d) a guarded boiler for steam at a pressure of more than 15 pounds per square inch or for water at a temperature of more than 250°F. and with a Therm-hour rating exceeding 5 and not exceeding 17,

shall ensure that when any one such guarded compressor or guarded boiler is operated no other part of the plant is operated unless a person who is qualified under section 16 of the Act is present in the plant as provided for in section 20 of the Act.

FAIL-SAFE DEVICES

25.—(1) The user of a boiler in a guarded stationary power plant or a guarded low-pressure stationary plant shall provide the boiler with protective devices including,

- (a) a high-pressure limiting device on the steam boiler or a high-temperature limiting device on the hot-water boiler, as the case may be;
- (b) a low-water level limiting device separate from any other device that controls the feed-water supply to the steam boiler;
- (c) a high-water level limiting device separate from any other device that controls the feed-water supply to the steam boiler; and

which device will automatically prevent the supply of energy to the prime mover of the compressor when an abnormal condition occurs during the operation of the compressor.

(4) The user of an engine in a guarded steam-powered plant shall provide the engine with a device to automatically cut off the supply of steam when the engine exceeds its maximum safe speed.

(5) The user of a guarded plant referred to in subsection 1 of section 24 shall provide the plant with an audible and visual alarm system that will,

- (a) ensure that the operating engineer or operator is warned when any abnormal or unsafe condition, for which a protective device is prescribed in subsections 1 to 4, occurs; and

- (b) extend to any part of the premises on which the plant is situated and in which the operating engineer or operator may be present while in charge of the plant.

SCHEDULE "A"

PUBLIC NOTICE OF APPLICATION
of the Council of The Corporation of
the City of Hamilton

For Approval of a By-law to Change the
Names of Various Streets

TAKE NOTICE, pursuant to the provisions of paragraph 95 of subsection 1 of Section 379 of The Municipal Act (R.S.O. 1960, Chapter 249), that His

Honour Judge T. L. McCombs, Esquire, Judge of the County Court of the County of Wentworth, has appointed Tuesday, the 22nd day of July, 1969, at the hour of 10.00 o'clock in the forenoon, local time, at his Chambers in the Court House, 50 Main Street East, in the City of Hamilton, in the County of Wentworth, for considering the above-mentioned By-law and for hearing those advocating or opposing the changes of names of any highways or parts of highways as set forth in the said By-law, which said By-law reads as follows:

By-LAW No.

To Change the Names of Various Streets

WHEREAS by Section 379 (1), paragraph 95 of The Municipal Act, R.S.O. 1960, C. 249, the City of Hamilton may by by-law change the name of a highway;

AND WHEREAS the said Section 379 (1) requires that the City shall state the reason for the change;

THEREFORE the Council of The Corporation of the City of Hamilton enacts as follows:

1. The names of the following streets shall be changed as follows, namely:

- (1) From ALBION ROAD to ARBOUR ROAD, the whole of Albion Road extending between Mountain Brow Boulevard and Stone Church Road — requested by the residents to overcome mailing and delivery problems due to confusion between Albion Road and Mount Albion Road.
- (2) From QUIGLEY ROAD to THACK ROAD, that part of Quigley Road extending south from King Street East — since the north section of Quigley Road is being realigned where it intersects with King Street East, the old alignment south from King Street East will cease to be part of the designated Quigley Road and this section is therefore being re-named.
- (3) From UGARMA DRIVE to KENTLEY DRIVE, the whole of Ugarma Drive from Oakland Drive to Kenora Avenue — to establish uniformity of name since Ugarma Drive will become an extension of Kentley Drive under projected development.
- (4) From CENTENNIAL PARKWAY to CENTENNIAL PARKWAY NORTH, that part of Centennial Parkway extending north from Queenston Road — to extend the pattern in the house numbering system established in this area of the City.

2. The Director of Traffic is hereby authorized and directed to affix markers bearing the new names as hereinbefore provided, at the corners of the said streets, on public or private property, and to maintain the said markers in proper condition.

3. A copy of this By-law certified under the hand of the City Clerk and the seal of the Corporation shall, by the City Clerk, be registered in the Registry Office for the Registry Division of Wentworth within seven days after the date of the third reading and final passing of this By-law, together with the Judge's Certificate required by the provision of The Municipal Act.

4. The new names as hereinbefore provided shall take effect from the date of registration of the certified copy of the By-law and Judge's Certificate.

RECEIVED first and second readings only on the 13th day of May, 1969.

PASSED by a vote of at least three-quarters of all the members of the council this _____ day of _____, 1969.

ON MOTION duly made and seconded and unanimously carried, it was resolved as a special resolution that:

1. Article XII of the Constitution and By-laws of the Club be amended to read as follows:

ARTICLE XII
QUALIFICATION AND ELECTION OF DIRECTORS

Each director shall be the holder of one "B" share of the capital stock of the Club. There shall be a board of nine directors, all of whom shall be for a period of one year from the date of each annual meeting. Thereafter, at each successive annual meeting of the Club there shall be elected a new board of directors. The shareholders may re-elect any or all directors each year as often as the director is willing to serve on the board, provided such term does not exceed 5 consecutive years. Any director or directors may at any time be removed from office and one or more appointed in his or their stead by the shareholders at a special general meeting called for that purpose. A director so appointed shall hold office for the balance of the term of the director in whose stead he was appointed. Five of the directors shall form a quorum for the transaction of business. Questions arising at any meeting of the directors shall be decided by a majority of votes and in case of an equality of votes the chairman, in addition to his original vote, shall have a second or casting vote. A directors' meeting may be held at any time or place within Ontario from time to time without formal notice if all the directors are present or those absent have signified their consent to such meeting being held and their inability to attend. Directors' meetings may be formally called by the president or by any two directors or by the secretary by direction of the board. Notice of such meeting shall be delivered or mailed or telegraphed to each director not less than three days before the meeting is to take place.

Vacancies on the board through death, disqualification or retirement of the directors, may be filled by the directors remaining in office and any person so appointed to the board shall hold office as a director and shall have all the powers of a director for the balance of the term of the director in whose stead he is appointed.
